

Ecullly, December 15, 2025 – 8.00 a.m.

Launch of the VEOS and Twin Peaks ranges in Colombia

Spineway, a specialist in innovative implants for the treatment of spine disorders, announces the commercial launch of its VEOS and Twin Peaks ranges in Colombia. To mark the occasion, Spineway's new distributor in Colombia held two events in late November, in Barranquilla and Bogotá, with support from the Group.

Presentation of the Spineway Group by Lorenzo Tamas

Demonstration of the VEOS system by Marie Andria

Nearly 50 Colombian surgeons attended these meetings, which provided an opportunity to present the Spineway Group and its entire product range, with a particular focus on the VEOS posterior fixation system and the Twin Peaks lumbar cage range.

Marie Andria (Product Manager) and Lorenzo Tamas (Sales Manager for Latin America) traveled to Colombia to support the launch. Working alongside the Colombian distributor's teams, they answered questions from practitioners and provided technical support by leading hands-on workshops.

The launch consolidates the Group's growing presence in Latin America and confirms the increasing interest in its solutions in this well-established and strategic market. It illustrates the Group's ambition to become a globally recognized player in minimally invasive spine treatments.
